

ISOPERIBOL CALORIMETER

Analyse device for detecting energy value of solid and liquid fuels.

Factories can define used raw material for energy with calorimeter.

That way they can save energy and carry out controlled purchase process.

ANALYSE PERIOD

16 min / 10 min

RSD

LESS THAN 0.1%

CONTROL OPTIONS

Touch Screen
/PC

WATER FILLING

Automated

TEMPERATURE PRECISION

0.0001°C

STANDARTS

Results According
to ASTM, DIN, ISO
Standarts

OPTION TO HAVE

Recirculation
Chiller

OPTION TO HAVE

Halogen
Resistant Bomb
